Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit

Only Water Quality Control Commission- regulated systems will be incorporated into the OCD's WQCC Permits, while OCD regulated systems will be handled under separate permit(s). A current discharge permit is valid until its normal expiration date or November 15, 2012, whichever is later. All facilities with processes subject to the Water Quality Act must have permits in place by November 16, 2012. H2S Contingency Plans; pits, ponds, above and/or below-grade tanks; waste treatment, storage and disposal; and landfarms and landfills may require separate permitting under the OCD Oil, Gas, and Geothermal regulations.

Proper completion and timely submission of this questionnaire is requested for all facilities with discharge permit expiration dates before November 15, 2012. Please complete and submit a separate questionnaire for each facility before July 15, 2011.

- Name of the owner or operator of the facility

Owner & operator: El Paso Natural Gas Company

- Point of contact

Name Richard Duarte
 Telephone 505 831-7763 Office 505 269-2794 Cell
 Email ricardo.duarte@el.paso.com
 Mailing address 8725 Alameda Park Drive
Albuquerque, NM 87113

- Facility name Lincoln "B" Compressor Station

- Facility location

Unit Letter, Section, Township, Range E/2, SE/4, Section 22, T-2-S, R-12-E
 Street address (if any) Lincoln County, NM

- Facility type

<input type="checkbox"/> Refinery	<input type="checkbox"/> Gas Plant	<input checked="" type="checkbox"/> Compressor
<input type="checkbox"/> Crude Oil Pump Station	<input type="checkbox"/> Injection Well	<input type="checkbox"/> Service Company
<input type="checkbox"/> Geothermal	<input type="checkbox"/> Abatement	
<input checked="" type="checkbox"/> Other (describe) <u>sweet - ready for market gas transport.</u>		

- Current and Past Operations (please check all that apply) -none apply

<input type="checkbox"/> Impoundments	<input type="checkbox"/> Treatment Plant	<input type="checkbox"/> Waterflood
<input type="checkbox"/> Disposal Well	<input type="checkbox"/> Brine Well	<input type="checkbox"/> Wash Bay

Steam Cleaning Groundwater Remediation

• Facility Status Active Idle Closed

• Does this facility currently have a discharge permit? Yes No

If so, what is the permit number? GW-231

• Are there any routine activities at the facility which intentionally result in materials other than potable water being released either onto the ground or directly into surface or ground water?

(This includes process activities, equipment maintenance, or the cleanup of historic spills.)

Yes No

If so, describe those activities including the materials involved, the frequency of discharge, and the estimated volume per discharge event.

• What is the depth below surface to shallowest ground water in the area? ~50 ft

• Are there any water supply, groundwater monitoring, or recovery wells at the facility? none.

Water supply Monitoring Recovery Local water is provided by the Village of Corona Water Users Assn.

If these wells are registered with the Office of the State Engineer (OSE), what are the OSE well numbers? _____

• Are abatement actions ongoing? none currently or in past.

• Are there any active or inactive UIC wells present as part of the federal Underground Injection Control program associated with this facility? Yes No

If so, what are the API numbers assigned to those wells?

• Are there any sumps at the facility? Yes No

Number of sumps with volume less than 500 gallons 1

Use and contents Building drain and used oil

Is secondary containment incorporated into the design? Yes No

Number of sumps with volume greater than 500 gallons 0

Use and contents _____

Is secondary containment incorporated into the design? Yes No

Oil & Gas Facilities Inventory Questionnaire

May 12, 2011

Page 3 of 3

- **Does the facility incorporate any underground lines other than electrical conduits, freshwater, natural gas for heating, or sanitary sewers?** Yes No

If so, what do those buried lines contain?

used oil and water

THIS FORM IS DUE TO THE OIL CONSERVATION DIVISION BY JULY 15, 2011.

Questions? Please contact Glenn VonGonten at 505-476-3488 or Carl Chavez at 505-476-3490.

Thank you for your cooperation.

Division Director
Oil Conservation Division

MARCH 1, 2012

Mr. Glen Thompson
El Paso Natural Gas Company
1550 Wind Way
Odessa TX 79761

Dear Mr. Thompson:

The Oil Conservation Division's (OCD) records indicate that the following Water Quality Control Commission (WQCC) Discharge Permits have already expired or will soon expire.

GW-049	EPNG Blanco A CS
GW-231	EPNG Lincoln B CS
GW-092	EPNG Rio Vista CS

OCD has revised its permitting policies. These changes may affect the renewal of your discharge permit(s). Please submit an "Oil & Gas Facilities Questionnaire for Determination of a WQCC Discharge Permit" for each of your facilities (see attachment and OCD's "Notifications and Announcements" at <http://www.emnrd.state.nm.us/ocd>). Please submit the completed Questionnaires within 30 days of your receipt of this letter. Based on your response, OCD will determine whether you will need to submit a discharge permit renewal. If OCD determines that you no longer are required to operate under a WQCC Discharge Permit, you may be required to obtain a separate permit(s) for other processes at your facility, such as: pits, ponds, impoundments, below-grade tanks; waste treatment, storage and disposal operations; and landfarms and landfills. OCD will determine if any of these existing processes may require a separate permit under OCD's Oil, Gas, and Geothermal regulations. If OCD determines that a separate permit(s) is required, then a letter will be sent to you indicating what type of permit is required.

Please keep in mind, if your facility has any discharges that would require a WQCC Discharge Permit now or in the future, then you will be required to renew or obtain a WQCC Discharge Permit.

Mr. Thompson
