Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		If YES, Volume Impacting the Watercourse.		

HOBBS OCD

JUL 11 2011

RECEIVED

If a Watercourse was Impacted, Describe Fully.*

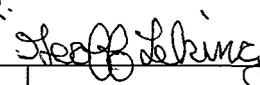

Describe Cause of Problem and Remedial Action Taken.*

Check meter at Lynch Station locked down and relieved to the sump. The sump was operating but couldn't keep up and the sump overflowed. A vacuum truck was utilized to recover the crude oil that pooled on the surface.

Describe Area Affected and Cleanup Action Taken.*

The impacted surface soil and caliche will be excavated, stockpiled, and remediated. Confirmation samples will be collected from the excavated area and the stockpile(s).

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
