Describe Cause of Problem and Remedial Action Taken.*
The injection line ruptured. The line was repaired.

Describe Area Affected and Cleanup Action Taken.*
The total affected area spans 6,000 ft² which included 4,583 ft² of pasture and 1,417 ft² of area along a two track dirt road. The site will be remediated to meet NMOCD standards.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
