If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
The water leg on the gun barrel could not keep up with the volume of fluid. Water was pushed to the oil tank and the tank overflowed. We have upgraded the water leg from a 4" to a 6".					
Describe Area Affected and Cleanup Action Taken.*					
Initially 9bbls of produced water and oil were released from the oil tank and we were able to recover 8.5bbls with a vacuum truck. The entire release was contained inside the lined facility. All free fluid has been removed and contaminated gravel has been removed as needed. We have replaced the contaminated gravel with fresh gravel. The facility has been returned to its prior condition					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
