Mike and Terry,

Tetra Tech will be onsite Thursday morning (7-14-11) to assess the spill at the Polaris Tank Battery. Soil samples will be collected using a hand auger to delineate the spill area. Once the Polaris assessment is completed, the Sagebrush Federal COM #1 spill will be assessed the same day, if time permits. If not, the assessment will be performed on Friday (4-15-11). We will call you on any schedule changes on the projects. Call me if you have any questions, thanks
