RE: Application for Administrative Approval of Unorthodox Location
XTO Energy Inc.'s Dawson "A" #1G Well
1,500' FSL and 475' FWL (NW/4 SW/4)
Unit L, Section 4, T27N-R8W
San Juan County, New Mexico
Chacra Formation

30-045-31128

Dear Mr. Stogner:

On February 11, 2003, the NMOCD issued **Order No. R-11898 in Case No. 12978** approving the non standard location of the above captioned well to be drilled by XTO Energy Inc. and completed in the Mesaverde and Dakota formations. When the aforementioned order was issued, XTO Energy Inc. owned 100% interest in both formations and owned no interest in the up-hole Chacra Formation. XTO has recently been able to acquire 100% of the Chacra rights in the SW/4 and plan to attempt a completion in the Chacra formation in this wellbore. It is not economical to drill a well for the Chacra formation only and a recompletion in this wellbore to the Chacra Formation would be economical and increase production. XTO Energy Inc. hereby requests administrative approval for an unorthodox location to the Chacra formation in the above referenced well. Attached for your reference are the C-102's for the Mesaverde and the Dakota formations that were drilled in this well.

By certified mail, a copy of this letter and request for administrative approval has been sent to all of the Chacra working interest owners and offset operators listed on the attached list. XTO would like to request your Administration Approval for the unorthodox location based on the above information. Should you need any additional information please feel free to contact me at (817) 885-2454.
