Re: *Administrative application of Conoco, Inc. dated August 1, 1999 to establish an 80-acre non-standard gas spacing and proration unit within the Eumont Gas Pool comprising the E/2 NE/4 of Section 22, Township 20 South, Range 37 East, NMPM, Lea County, New Mexico, to be dedicated to the existing SEMU Skaggs "B" Well No. 84 (API No. 30-025-20654), located at an unorthodox gas well location 330 feet from the North line and 610 feet from the East line (Unit A) of Section 22.*

Eumont Pro Gas Pool (76480)  
Lea County, NM

Dear Mr. Stogner,

Please find enclosed a copy of the NSP Order # 968 designating 160 acres (E/2 of the E/2) of Section 22 to the SEMU Eumont #90. Also enclosed is a copy of the C-102 outlining the proration unit of the subject acreage for the SEMU Eumont #90. The SEMU Skaggs B #84 falls into this proration unit and because the Eumont pool is a prorated pool Conoco, Inc would like to dismiss their request for a Non-standard proration unit request. This well once completed will be a part of the Eumont participating area. The SEMU B #84 is still a Non-standard location and Conoco's original request dated August 1, 1999 for a NSL Order still stands. Please find enclosed an amended C-102 simultaneously dedicating the 160 acre proration unit for the SEMU B #84 and the SEMU Eumont #90.

Thank you so much for your guidance and instruction regarding this application. If you have any further questions please call me at (915) 686-5798.

Sincerely,

Kay Maddox
