Attn: Mr. Michael Stogner

Dear Mr. Stogner

Phillips Petroleum Company respectfully requests an administrative approval of an unorthodox location for the Sims Well No. 10. This well was recently recompleted in the Tubb formation by abandoning the Granite Wash with a CIBP and 3 sacks of cement and perforating the Tubb. The high gas oil ratio of approximately 50000/1 will require the well to be classified as a gas completion.

The location of 1980' FNL and 550' FWL was a standard location while the Sims Well No. 10 was classified as an oil well. The field rules for a gas well require the location to be 660' from the outer boundary of the proration unit.

Attached for your reference is a plat of this lease indicating the ownership of all operators offsetting the proration unit. A copy of this request is being furnished to each of these operators along with a waiver request.

Direct any questions regarding this request to Ken Schramko at (915) 368-1399 or Joy Maples at (915) 368-1667.

Yours very truly,

L.M. Sanders, Supervisor,
Regulatory Affairs
