*NSP-TUBB.1*

Gentlemen:

Phillips Petroleum Company respectfully requests administrative approval for a non-standard proration unit for the Phillips operated Sims, Well No. 10. This well is completed in the Tubb Oil and Gas Pool, Lea county, New Mexico. This request is due to the Phillips operated Sims, Well No. 3 being re-classified from a gas well to an oil well per a recent test. Both well No. 10 and Well No. 3 shared a common proration unit which was described as the NW/4, 160 acres, of Section 24, T-22-S, R-37-E, Lea County.

With the re-classification of the Sims, Well No. 3 to an oil well and having to dedicate 40 acres to said well, it became necessary to dedicate 120 acres to Sims, Well No. 10. The appropriate plats, Form C-102, are attached.

Copies of this request have been provided to the Hobbs District Office and all offset operators to non-standard proration unit (list attached). if you need any additional information, please contact me at the letterhead address or telephone (915) 368-1488.

Sincerely,

L. M. Sanders,  
Senior Regulations Analyst
