P. O. Box 97
Hobbs, New Mexico

O
Attention: Mr. E. Y. Wilder

Gentlemen:

Amendment
Administrative Order PC-43

P
Reference is made to your letter dated June 15, 1965, wherein you request an amendment to Administrative Order PC-43 which as amended authorized the commingling of Ellenburger, Devonian, McKee, Fusselman, and Drinkard production underlying your Hodges Lease, North Justis Field, Lea County, New Mexico, after separately metering the production from each pool.

Y
It is our understanding that the commingling installation is at present handling North Justis Fusselman and North Justis Devonian production from three wells and that all of the wells are of marginal nature; you therefore wish to commingle on the basis of periodic well tests.

Administrative Order PC-43 is hereby amended to permit the commingling of North Justis Fusselman production from your Hodges "B" Well No. 3 and North Justis Devonian production from your Hodges "B" Wells Nos. 4 and 5, allocating the production to each on the basis of periodic well tests. Please notify the Commission in the event that any well in either of the aforesaid pools becomes capable of top allowable production.

Very truly yours,

A. L. FORTER, Jr.
Secretary-Director

Gentlemen:

Re: Hodges "B" Lease
Administrative Order PC-43
Sec. 1-T25S-R37E Lea County,
New Mexico

Administrative approval is requested to allocate production by the well test method on this lease. No wells with top allowable capacity are being produced into this system.

Following are the lease wells commingled:

<u>Well No.</u>	<u>Pool</u>	<u>Oil Capacity</u>	<u>Top Allowable</u>
Hodges B #3	Justis Fusselman North	55	87
Hodges B #4	North Justis Devonian	10	87
Hodges B #5	North Justis Devonian	20	87

Attached is a sketch showing the proposed installation.

Very truly yours,

CITIES SERVICE OIL COMPANY

E. Y. Wilder
District Superintendent

Gentlemen:

Re: Hodges "B" Lease
Administrative Order PC-43
Sec. 1 T25S R37E
Lea County, New Mexico

Since approval was given to commingle production on the Hodges "B" Lease only one well has top allowable capacity. Administrative approval is requested to allocate production by the well test method without the metering of each zone. The attached sketch indicates the proposed installation.

Following are the lease wells commingled:

<u>Well</u>	<u>Pool</u>	<u>Allowable</u>	<u>Top Allowable</u>
2	North Justis McKee	22	87
3	" " Fusselman	87	87
3	" " Blinebry	9	50
4	" " Devonian	30	87
5	" " Devonian	35	87.

The top allowable Fusselman well will be metered.

Very truly yours,

CITIES SERVICE OIL COMPANY

E. Y. Wilder
