**Subject:** Confusion

Mike and David,  
Mike Francis called today and faxed over a C-102 showing an intent to have 2 gas wells drilled horizontally from one end to the other in the same W/2 of a 320 acreage dedicated unit. To me this contradicts what the rule for gas well spacing in Rule 104 says.  
He told me that he spoke to the both of you today or yesterday? and this was okay and could be approved in our District????  
This is for Wolfcamp or deeper wells. I told him yesterday, that he needed to go to Santa Fe and obtain an approval. I'm going by what Rule 104(2)(a)(b) says in the rule.  
Please advise. I can't understand how this can be correct.  
I'll fax over the information he sent to me today.

Thanks  
Bryan Arrant
