NATURE OF RELEASE

Type of Release Condensate	Volume of Release Less the 5 barrels	Volume Recovered 0
Source of Release Well header	Date and Hour of Occurrence 9/22/09 am	Date and Hour of Discovery 9/22/09 am
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher – NMOCD/Artesia	
By Whom? Amanda Trujillo – Yates Petroleum Corporation	Date and Hour 11/12/2009 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*
On 9/22/09 a crack in the bottom of a check valve released crude oil and produced water. It was an un-reportable quantity; however an internal report was generated. A series of small un-reportable spills have occurred over time at this location. During general housekeeping procedures removal of contaminated material will removed and disposed of at an NMOCD approved facility.

Describe Area Affected and Cleanup Action Taken.*
The area is 15' x 15'. A dozer will scrape up the contaminated material and dispose of it at an approved facility. Soil will be tested for TPH, BTEX and Chlorides.

Depth to Ground Water: >100' (approx. 300', per New Mexico Office of the State Engineer); Wellhead Protection Area: No; Distance to Surface Water Body: >1000'; SITE RANKING IS 0. Based on site ground water quality and enclosed analytical results.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
