Describe Area Affected and Cleanup Action Taken.* **Return to sales upon purchaser opening their lines**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Flaring

Good morning,

This is to inform you that Oxy began flaring at the Lost Tank 3 Federal 23 Deep location on October 5, 2012 due to unplanned shut down of DCP Linam Ranch gas plant. Oxy is no longer flaring as of October 5, 2012. I will send you the C-141 and other additional forms this afternoon.

Thank you.

Brenda Hodges
