Dear Ms. Staley:

We have reviewed your application to commingle production downhole from the Blanco Mesaverde and the Actec Pictured Cliffs Pools in the following well:

Production profiles from both formations were analyzed to determine if future allocation based on percentages would be equitable. Both formations have been declining at similar rates for the past year. Your Application and corrected allocation method, are hereby approved as submitted, effective the date that actual commingling of the pools occurs. Approved allocation factors are:

| Formation             | Gas | Condensate |
|-----------------------|-----|------------|
| Blanco Mesaverde      | 80% | 100%       |
| Aztec Pictured Cliffs | 20% | -0-%       |
