

August 14, 2012

Mr. Mike Bratcher  
Oil Conservation Division  
Artesia, NM

Re: Santa Fe Land SWD #1  
30-015-20501  
Section 17, T19S-R26E  
Eddy County, New Mexico

Dear Mr. Bratcher:

Yates Petroleum Corp. would like to submit for your consideration the enclosed work plan for the above captioned well. The plan is being submitted in response to the C-141 report dated August 8, 2012.

**If there are no objections with the scope of work described in the plan, Yates will have a contractor begin work on or after the week of August 28, 2012.**

If you have any questions call me at 575-748-4311

Thank you.

Yates Petroleum Corporation

Jeremy Haass  
Environmental Regulatory Agent

Enclosure(s):

Diagram of Location  
Analytical Report H201822

**Yates Petroleum Corporation**

**Santa Fe Land SWD #1**

**Section 17, T19S-R26E**

**Eddy County, New Mexico**

**August 14, 2012**

**I. Location**

Take Highway 285 south out of Artesia, NM to Rocking R Road and turn right then first right takes you to location.

**II. Background**

On July 30, 2012 a release occurred of 200 B/PW of which 180 B/PW was recovered. Yates submitted a C-141 on August 8, 2012 to the NMOCD District II office. The total affected area was 40 yards x 100 yards. Initial delineation samples were taken (8/3/12) and sent to an NMOCD approved laboratory.

**III. Surface and Ground Water**

Area surface geology is Cenozoic. The nearest Depth to Groundwater record listed on the Chevron Texaco Trend Map (Section 17, T19S-R26E) shows depth of groundwater to be approximately 116 feet making the site ranking for this site a zero (0). Watercourses in the area are dry except for infrequent flows in response to major precipitation events.

The ranking for this site is zero (0) based on the as following:

Depth to ground water	> 100'
Wellhead Protection Area	> 1000'
Distance to surface water body	> 1000'

**IV. Soils**

The area consists of soils that are caliche and interspersed with clay seams providing a low permeability barrier to retard vertical percolation of contaminants into the subsurface.

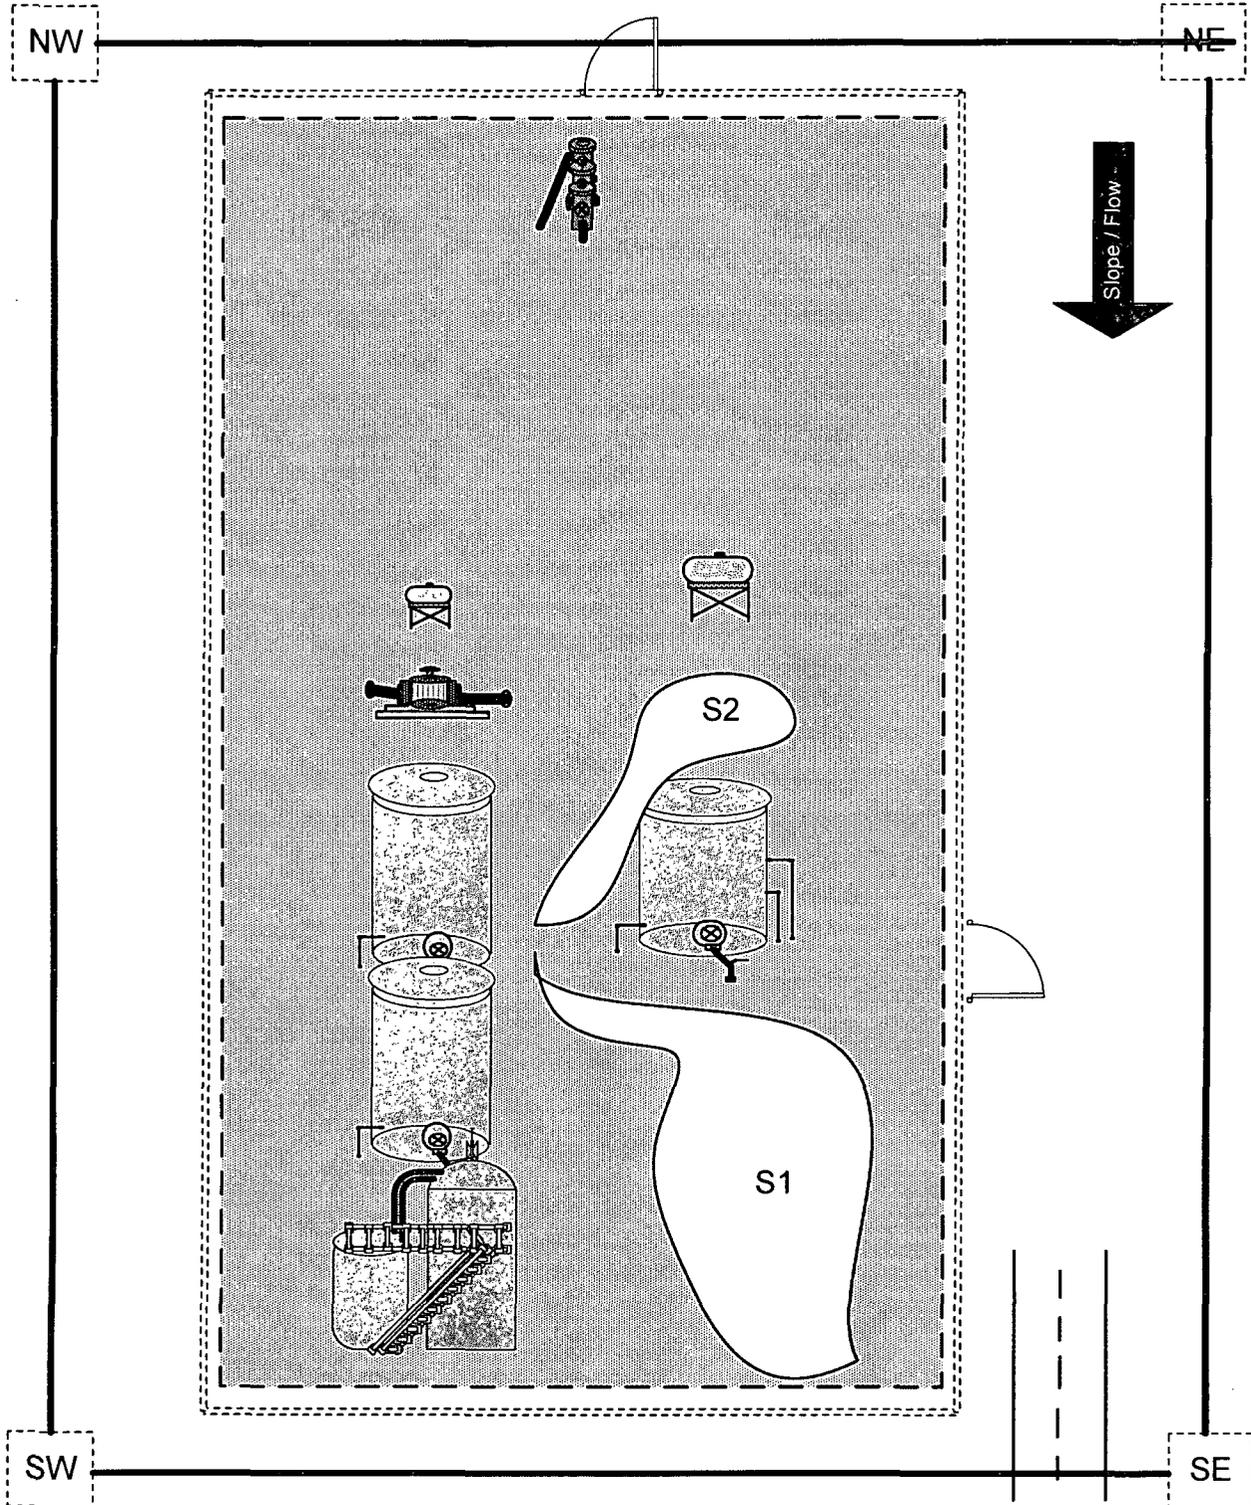

**V. Scope of Work**

Upon approval of this work plan and based on the enclosed analytical results, Yates Petroleum Corp. will have a contractor excavate 5' from sample area S1 and 2' from sample area S2 of impacted soil. Impacted soils will be taken to an NMOCD approved facility for disposal. The S1 area has a solid natural rock layer at approximately 5' which impeded the movement of chlorides any further down. All impacted material will be removed above the rock layer and hauled to an NMOCD approved facility for disposal and will be backfilled with like material. Finally a liner will be placed over both S1 and S2 areas to protect against future releases.

RE: SANTA FE LAND SWD #1

Enclosed are the results of analyses for samples received by the laboratory on 08/06/12 13:12.

Cardinal Laboratories is accredited through Texas NELAP under certificate number T104704398-11-3. Accreditation applies to drinking water, non-potable water and solid and chemical materials. All accredited analytes are denoted by an asterisk (\*). For a complete list of accredited analytes and matrices visit the TCEQ website at [www.tceq.texas.gov/field/qa/lab\\_accred\\_certif.html](http://www.tceq.texas.gov/field/qa/lab_accred_certif.html).

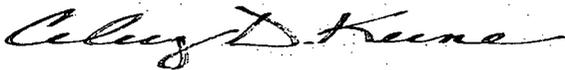

Cardinal Laboratories is accredited through the State of Colorado Department of Public Health and Environment for:

Method EPA 552.2	Haloacetic Acids (HAA-5)
Method EPA 524.2	Total Trihalomethanes (TTHM)
Method EPA 524.4	Regulated VOCs (V1, V2, V3)

Accreditation applies to public drinking water matrices.

This report meets NELAP requirements and is made up of a cover page, analytical results, and a copy of the original chain-of-custody. If you have any questions concerning this report, please feel free to contact me.

Sincerely,

Celey D. Keene

Lab Director/Quality Manager

Cardinal's liability and client's exclusive remedy for any claim arising, whether based in contract or tort, shall be limited to the amount paid by client for analyses. All claims, including those for negligence and any other cause whatsoever shall be deemed waived unless made in writing and received by Cardinal within thirty (30) days after completion of the applicable service. In no event shall Cardinal be liable for incidental or consequential damages, including, without limitation, business interruptions, loss of use, or loss of profits incurred by client, its subsidiaries, affiliates or successors arising out of or related to the performance of the services hereunder by Cardinal, regardless of whether such claim is based upon any of the above stated reasons or otherwise. Results relate only to the samples identified above. This report shall not be reproduced except in full with written approval of Cardinal Laboratories.

RE: SANTA FE LAND SWD #1

Enclosed are the results of analyses for samples received by the laboratory on 08/06/12 13:12.

Cardinal Laboratories is accredited through Texas NELAP under certificate number T104704398-11-3. Accreditation applies to drinking water, non-potable water and solid and chemical materials. All accredited analytes are denoted by an asterisk (\*). For a complete list of accredited analytes and matrices visit the TCEQ website at [www.tceq.texas.gov/field/qa/lab\\_accred\\_certif.html](http://www.tceq.texas.gov/field/qa/lab_accred_certif.html).

Cardinal Laboratories is accredited through the State of Colorado Department of Public Health and Environment for:

Method EPA 552.2	Haloacetic Acids (HAA-5)
Method EPA 524.2	Total Trihalomethanes (TTHM)
Method EPA 524.4	Regulated VOCs (V1, V2, V3)

Accreditation applies to public drinking water matrices.

This report meets NELAP requirements and is made up of a cover page, analytical results, and a copy of the original chain-of-custody. If you have any questions concerning this report, please feel free to contact me.

Sincerely,

Celey D. Keene

Lab Director/Quality Manager
