NATURE OF RELEASE

Type of Release	Oil and Produce water	Volume of Release	20bbls oil 200bbls produced water	Volume Recovered	18bbls oil 196bbls produced water
Source of Release	PVC water leg	Date and Hour of Occurrence	1/30/2013	Date and Hour of Discovery	1/30/2013 8:00 a.m.
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Mike Bratcher-OCD		
By Whom?	Michelle Mullins	Date and Hour	01/31/2013 10:05 a.m.		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			
If a Watercourse was Impacted, Describe Fully.*					
Describe Cause of Problem and Remedial Action Taken.*					
Due to high winds, a cracked PVC water leg allowed the release of produced fluids. A new water leg has been installed to prevent reoccurrence.					
Describe Area Affected and Cleanup Action Taken.*					
Initially 220bbls of produced fluids were released due to a cracked PVC water leg. We were able to recover 214bbls of produced fluids with a vacuum truck. The spill was completely contained inside the lined facility walls. All free fluid has been recovered. Any contaminated gravel has been removed, the liner has been steam cleaned, and we have replaced with fresh gravel as necessary. This facility has been returned to its prior condition.					
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Showstopper 19 Fed #6H-Immediate Notification

Mr. Bratcher:

At approximately 8:00 a.m. on 1/30/2013, a produced fluid release was discovered at the above-referenced facility. The fluid was contained inside the battery which is lined with 40 mil. An estimated 220 bbls of produced fluid was released. The cause of the release is currently under investigation. We will follow up within 15 days with a C-141 Report.
