Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

RECEIVED  
 NOV 26 2012  
 NMOCD ARTESIA

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

Having to flare at this site due to DCP has shut this location from being able to sale gas. A portable flare is set up to flare the gas at this location. This will last until DCP is able to accept the gas from this location again. DCP estimated this to be a week but it has lasted longer. This flare is discontinued and Oxy is no longer flaring at this location.

Describe Area Affected and Cleanup Action Taken.\* Return to sales upon purchaser opening their lines

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
