New Mexico Oil Conservation Division
2040 South Pacheco Street
Santa Fe, New Mexico 87505

Att: Mr. Ben Stone

Dear Mr. Stone:

In May 1996 application was made and administrative order was received for downhole commingling of the following well. In the original application, the proposed allocation method was the subtraction method.

San Juan 27-5 Unit #146

DHC 1238

As we discussed, we would like to amend our allocation method to a method approved by the District Office of the New Mexico Oil Conservation Division. This will afford us greater flexibility in determining the most accurate allocation formula.

We would appreciate your earliest consideration of this amendment. Please let me know if you have any questions.

Sincerely,

Peggy Bradfield
Regulatory/Compliance Administrator
