OGRID 282327  
**Good Times D06-2309 Well No. 1H**  
**API No. 30-045-35419**

**Subject Pools:**

Basin; Mancos Gas Pool (Pool Code 97232)  
South Bisti; Gallup Pool (Pool Code 5860)

You have requested permission to down-hole commingle production from the above-referenced pools within this wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 19.15.12.11.A NMAC, and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described.

Assignment of allowable and allocation of production from the well shall be as follows:

Basin; Mancos Gas Pool	Pct Gas: 50%	Pct Oil: 50%
South Bisti; Gallup Pool	Pct Gas: 50%	Pct Oil: 50%

It is our understanding that the above allocation percentages are based on the length of the completed interval of the wellbore in each pool

It is also understood that ownership of all interest in the pools from which production is being commingled is identical.

The operator shall notify the Division's Aztec district office upon implementation of commingling operations.

Pursuant to Rule 19.15.12.11B NMAC, the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

This Order is subject to like approval from the United States Bureau of Land Management.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

Jami Bailey  
Director
