Latitude N. 32.434001 Longitude W. 104.055557

**NATURE OF RELEASE**

Type of Release: Produced Water	Volume of Release: 375 Bbls.	Volume Recovered: 10 Bbls.
Source of Release: Produced water tank overflowed	Date and Hour of Occurrence: Date 4/25/13 time unknown	Date and Hour of Discovery: Date 4/25/13 5:00 p.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? NMOCD Emergency #104	
By Whom? Tony Savoie	Date and Hour: 4/26/13 at 8:00 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

**RECEIVED**  
 MAY 17 2013  
 NMOCD ARTESIA

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*  
 The Strainer on the suction to the SWD plugged up causing the pump to discharge at a rate that was not sufficient to keep up with the incoming water. The alarm system failed to report high tank levels and high discharge pressure. The strainer was removed and cleaned.

Describe Area Affected and Cleanup Action Taken.\*  
 The area was being remediated as a result of previous spills associated with the SWD pump failure. New impervious containment has been constructed around the SWD pump and oil production tanks. The area around the SWD tanks was scheduled for a soil boring event due to chloride levels that could not be delineated with a backhoe in that area. An air rotary rig has been scheduled to do the delineation. The area impacted was on top of several prior spills that stayed primarily around the SWD tanks and the caliche tank battery pad area.  
 The remediation will continue as planned. The containment will be constructed around the SWD tanks upon achieving closure status for leaks and spills.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
