APPLICATION FOR AUTHORIZATION TO INJECT

- I. PURPOSE: _____ Secondary Recovery _____ Pressure Maintenance _____ ☒ Disposal
Storage
Application qualifies for administrative approval? _____ ☒ Yes _____ No
- II. OPERATOR: Nabors Well Services Company
ADDRESS: 515 West Green Road Houston, TX 77067
CONTACT PARTY: Billy E. Prichard PHONE: 432-934-7680
- III. WELL DATA: Complete the data required on the reverse side of this form for each well proposed for injection.
Additional sheets may be attached if necessary.
- IV. Is this an expansion of an existing project? _____ Yes _____ ☒ No
If yes, give the Division order number authorizing the project: _____
- V. Attach a map that identifies all wells and leases within two miles of any proposed injection well with a one-half mile radius circle drawn around each proposed injection well. This circle identifies the well's area of review.
- VI. Attach a tabulation of data on all wells of public record within the area of review which penetrate the proposed injection zone. Such data shall include a description of each well's type, construction, date drilled, location, depth, record of completion, and a schematic of any plugged well illustrating all plugging detail.
- VII. Attach data on the proposed operation, including:
1. Proposed average and maximum daily rate and volume of fluids to be injected;
 2. Whether the system is open or closed;
 3. Proposed average and maximum injection pressure;
 4. Sources and an appropriate analysis of injection fluid and compatibility with the receiving formation if other than reinjected produced water; and,
 5. If injection is for disposal purposes into a zone not productive of oil or gas at or within one mile of the proposed well, attach a chemical analysis of the disposal zone formation water (may be measured or inferred from existing literature, studies, nearby wells, etc.).
- *VIII. Attach appropriate geologic data on the injection zone including appropriate lithologic detail, geologic name, thickness, and depth. Give the geologic name, and depth to bottom of all underground sources of drinking water (aquifers containing waters with total dissolved solids concentrations of 10,000 mg/l or less) overlying the proposed injection zone as well as any such sources known to be immediately underlying the injection interval.
- IX. Describe the proposed stimulation program, if any.
- *X. Attach appropriate logging and test data on the well. (If well logs have been filed with the Division, they need not be resubmitted).
- *XI. Attach a chemical analysis of fresh water from two or more fresh water wells (if available and producing) within one mile of any injection or disposal well showing location of wells and dates samples were taken.
- XII. Applicants for disposal wells must make an affirmative statement that they have examined available geologic and engineering data and find no evidence of open faults or any other hydrologic connection between the disposal zone and any underground sources of drinking water.
- XIII. Applicants must complete the "Proof of Notice" section on the reverse side of this form.
- XIV. Certification: I hereby certify that the information submitted with this application is true and correct to the best of my knowledge and belief.
- NAME: Billy E. Prichard TITLE: Agent for Nabors Well Services

Billy,

I reviewed this one while in Albuquerque and the information that I had at that time indicated Federal minerals. You are correct that it is over private minerals. Therefore, the BLM appreciates the notification and it will be the responsibility of NMOCD for the approval.

Wesley, Our land man advised that the well was over private minerals in the 40 acre tract where the well is located and the federal minerals where in the 40 acres to the west..I will double check.

Billy,

Two items that will need to be addressed:

1. An APD will be required to re-enter the well since it is in Federal minerals.
2. The 4" flush joint will not allow the required 0.422" requirement around the casing for the cement. This one calculates to 0.375".

Phillip, Some where in the risk department of Nabors the bonding of this well was dropped. They are currently in the process of getting the bonding for the Nabors SWD in place.

Thanks

Phillip, Nabors is checking of the filing of the additional bonding for the C108 for the Nabors SWD #1 and it will be handled if not all ready complete. I reviewed the 4" Flush Joint liner that is proposed for the SWD completion and I do not know if this will make any difference, but approximately 600 feet of proposed liner will be cemented in 8 1/2" hole. 5 1/2 " casing was set at 11200' and original TD of 8 1/2" hole is 11935' with only a 35 sack plug spotted at 11906'. I will let you know about the bonding as soon as I hear from Nabors.

Mr. Prichard;

I have reviewed the current open applications covered by C-108 and do not have an indication of an open application under review (either as Pueblo West or Nabors Well

Will, Please find enclosed 2 copies of form C108 for Nabors Well Services Company. The proposed SWD well is located on property that is owned by Nabors. The well is located within the Carlsbad city limits. I have had several emails and phone conversations with Richard Aguilar the oil and gas inspector for the City of Carlsbad. Richard has advised prior to seeking approval from the city, that we should first get approval from the NMOCD. If you would like to speak with Richard, he can be reached at the following numbers

Richard Aguilar

email; raguilar@cityofcarlsbadnm.com

Landman that was used for this work is Mike Shultz out of Roswell.

Legal Notice to be published in the Carlsbad Current Argus. I will send the Affidavit of Publication as soon as I receive from the newspaper.

I have filed C101, C102, C144 CLEZ and H2S Contingency Plan with District 2 office in Artesia.

Should you have questions please do hesitate to call, text or email.

Thanks

Billy(Bill)E. Prichard
