Line required full blow down to safely tie in the Devon well to the Enterprise system.

Describe Area Affected and Cleanup Action Taken.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC D rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC D marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC D acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**RE: Form C-141 Report for Enterprise Products
Gathering Line Blow-down**

Mr. Bratcher

Enclosed, please find the requisite C-141 Form for the pipeline blow-down on our D-3 gathering line on December 6, 2012. The venting was required to facilitate the tie-in of Devon Energy well Diamond 22 to the Enterprise gathering system.

This is sent pursuant to 29 (19.15.29) NMAC and as follow-up to verbal notification made to you on December 7, 2012 by Jim Heap.

If you have any questions or need more information, please contact Jim Heap by phone at 432-686-5404, by email at jkheap@eprod.com or me at 713-318-6684

Regards,

Matthew E. Marra,
Senior Director, Environmental
