FEB 01 2012
NMOCD ARTESIA

Describe Cause of Problem and Remedial Action Taken.*
The affected section of the 6-inch line was isolated and blown-down to relieve a hydrate blockage.

Describe Area Affected and Cleanup Action Taken.*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**RE: Form C-141 Report for Enterprise Products Operating LLC
Line D-1 Maintenance Blow-down.**

Mr. Bratcher:

Pursuant to 29 (19.15.29) NMAC, please find the requisite C-141 Form for our D-1 Line maintenance blow-down. The blow-down was performed to relieve a hydrate build-up and blockage causing an over pressure situation in the pipeline.

If you have any questions or need more information, please contact Jim Heap by phone at 432-686-5404, by email at jkheap@eprod.com or me at 713-318-6684

Regards,

Matthew E. Marra
Senior Director, Environmental
