NATURE OF RELEASE

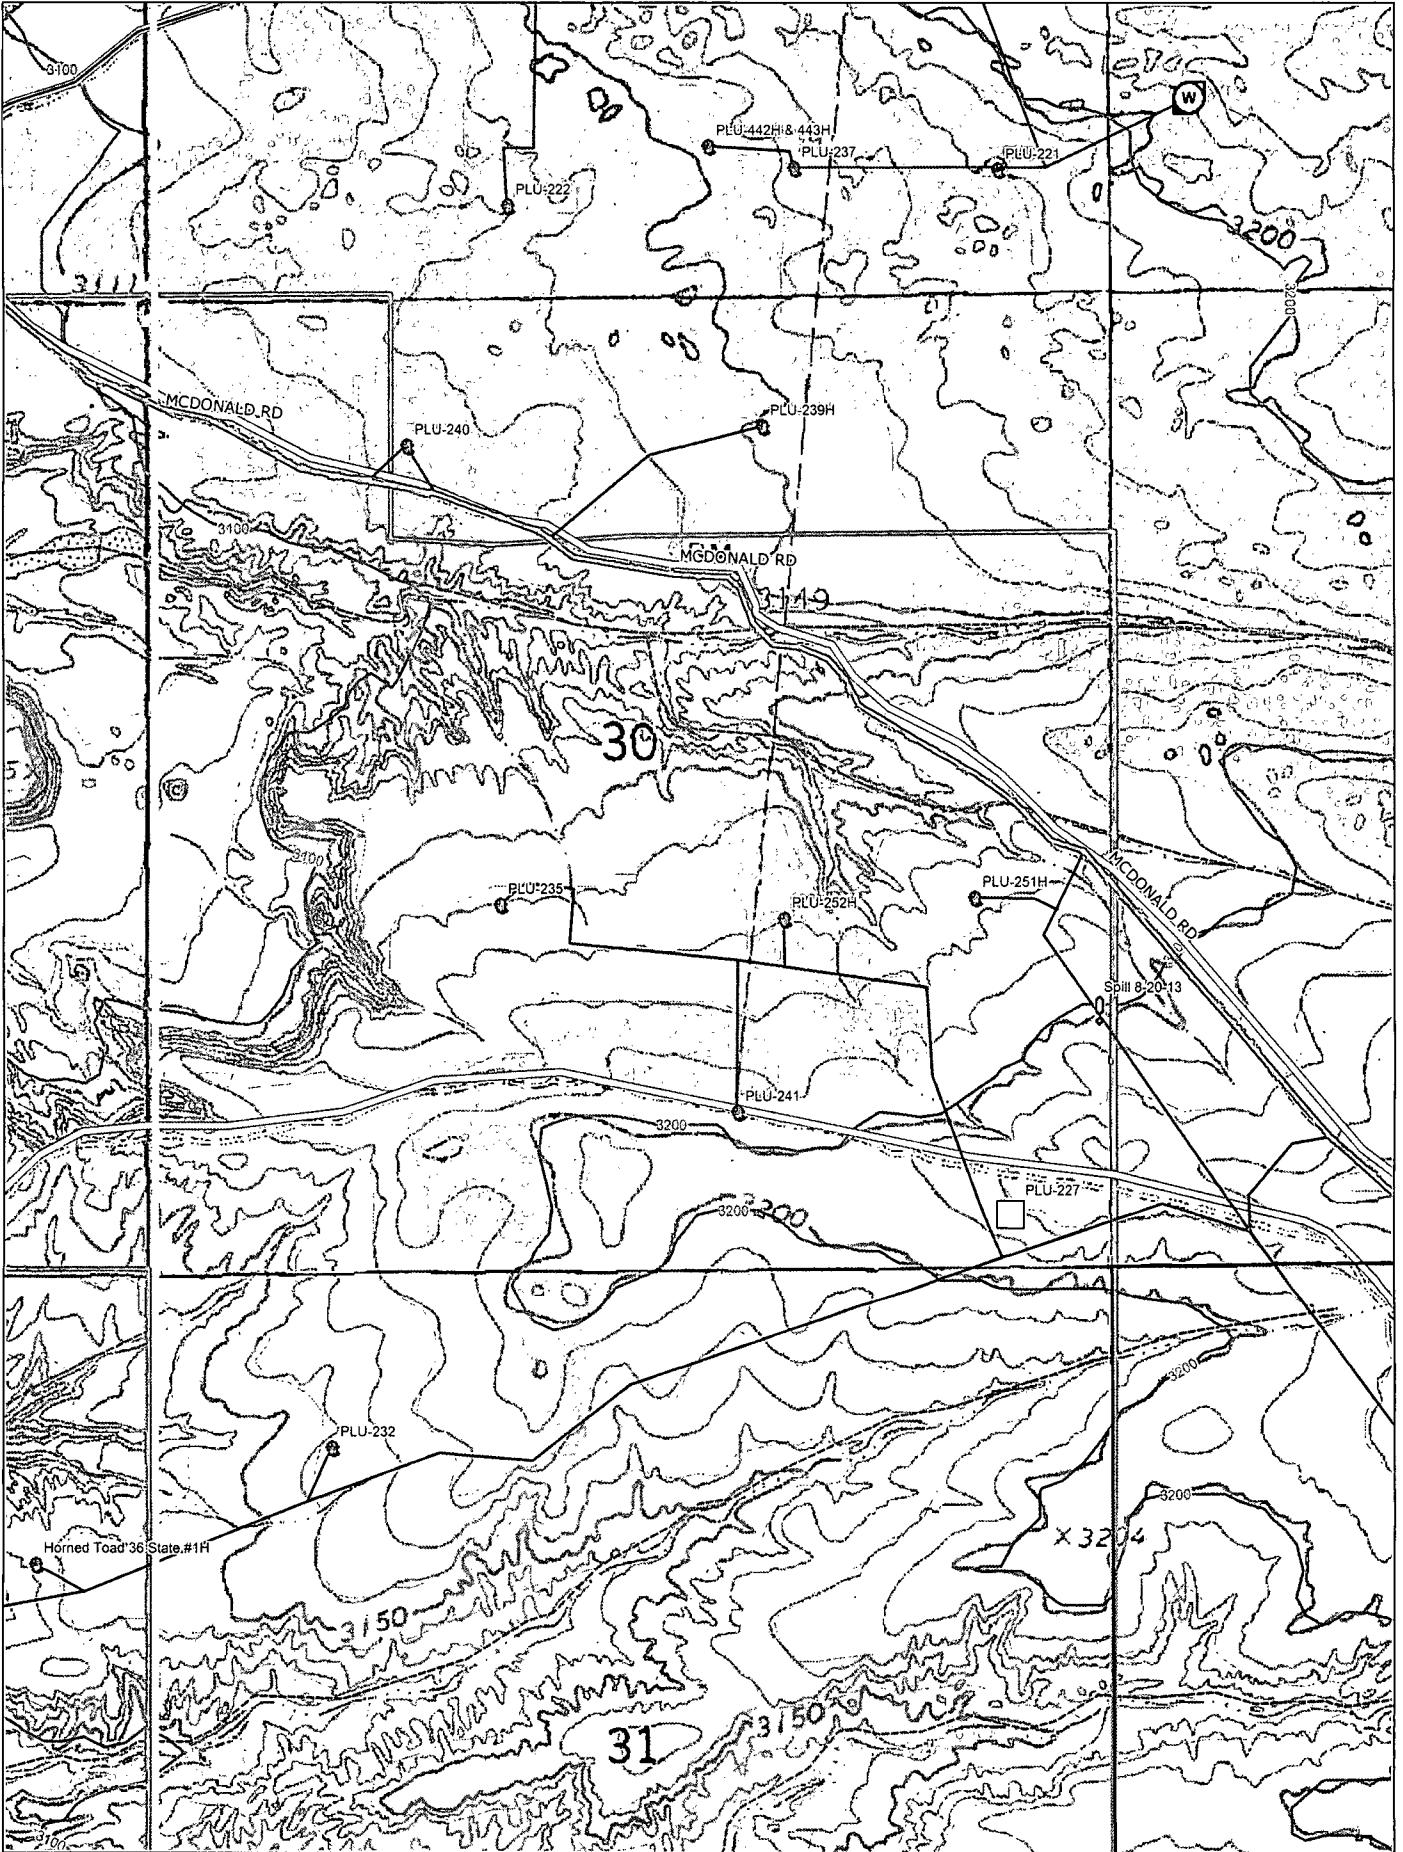

Type of Release: Crude oil and produced water	Volume of Release: 2 Bbbls oil and 10 Bbbls produced water	Volume Recovered: None
Source of Release: 27/8" flow line	Date and Hour of Occurrence: Date 8/20/13 time unknown	Date and Hour of Discovery: Date 8/20/13 time 9:00 a.m.
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* The flow line developed a leak due to external corrosion. The section of pipe was replaced.		
Describe Area Affected and Cleanup Action Taken.* The spill stayed in the lease road area and traveled to the Regency Nash Draw Compressor site. Approximately 1500 sq. ft. of lease road and approximately 300 sq. ft. of compressor pad location. All of the fluid soaked into the ground. The road has had numerous reports of produced water being illegally dumped in the road way and compressor site. Soil samples were collected from various locations on the road on 9/10/13 to determine the extent of the release area and the existing chloride contamination due to illegal dumpings. A remediation plan will be submitted based on the findings of the sampling event.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
