Describe Cause of Problem and Remedial Action Taken.* The 3" poly line failed at a welded connection. The pump was not running at the time of discovery, produced water was gravitating from the tank onto the ground outside the tank containment area, the tank valve was closed and the line was repaired.		
Describe Area Affected and Cleanup Action Taken.* Approximately 3334 sq. ft. of pasture and approximately 1162 sq. ft. of road was affected by the release. All of the fluid had soaked into the ground. A one-call will be placed and the saturated soil will be scraped up and stockpiled on-site. A remediation plan will be submitted to the NMOCD.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
