Describe Cause of Problem and Remedial Action Taken.\*  
A main water line (going to multiple Salt Water Disposals in the area) ruptured, spilling produced water and crude oil. All batteries that tied into the line were shut in. Vacuum trucks were called to recover produced water and crude oil. Roustabouts were also called to fix the water line. Since the release the water line has also been replaced.

Describe Area Affected and Cleanup Action Taken.\*  
An approximate area of 50' X 600'. The release occurred in a pasture between two Oxy locations (Federal 1 #1 and Federal 1 #6). The latitude/longitude GPS points provided above were taken at an electrical pool near the release area. A clean-up crew was called to do initial clean-up of the area, and all excavated soils are being disposed of at an approved NMOCD facility. Vertical delineation samples were taken 11/4/2013 and will be sent to a NMOCD approved facility to be analyzed. As soon as Yates receives analytical results from the laboratory, they will be provided to NMOCD and BLM and further work will be determined and discussed with both agencies. **Depth to Ground Water: >100' (approximately 100-125', Section 1, T22S-R31E, per Chevron Trend Map, Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 0.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
