If a Watercourse was Impacted, Describe Fully.*  NA		
Describe Cause of Problem and Remedial Action Taken.* A water transfer line in the pasture just off location developed a hole. Upon discovery, a clamp was placed on the line.		
Describe Area Affected and Cleanup Action Taken.* Pasture land, approximately 10' x 50'. Talon was contacted to collect samples.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

I just want to let you know that early today we had a hole in a water transfer line in the pasture just off the pad by the flare stack. We lost approximately 10 bbls of produced water. We will be doing an assessment and a work plan ASAP as well as a C-141.

Please let me know if you need anything additional.

Good Morning Christine,

I just called and left you a message about the release for the well listed in the subject line for the date of 11/26/13.

I was wondering if you would be able to email the C-141 Initial to myself or Mike Bratcher today?

Just let us know. Thank you.

Have a great day.
