By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*  
  
DTW = 69' JRG L 2/6/14

Describe Cause of Problem and Remedial Action Taken.\*  
Due to inclement weather the poly flow line ruptured on the well pad. The well was shut in and a vacuum truck was dispatched to recover fluid. The line was repaired.

Describe Area Affected and Cleanup Action Taken.\*  
A vacuum truck recovered 7 barrels of total fluid. The site was mapped and surface samples collected. On 1/10/2014 a vertical was excavated to 4 ft. below ground surface and samples collect and taken to a commercial laboratory for analysis for chloride and TPH. A corrective action plan will be submitted to NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
