**NATURE OF RELEASE**

Type of Release: Crude Oil	Volume of Release: Unknown	Volume Recovered: N/A
Source of Release: Emergency Pit	Date and Hour of Occurrence: Unknown	Date and Hour of Discovery: 12/11/2013
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*  
  
DTW = 60' JRL 2/10/14

Describe Cause of Problem and Remedial Action Taken.\* Unlined pit used by previous operator (Windmill Oil Company) for which ExxonMobil (XTO) was identified by BLM as a previous lease operator and contacted for cleanup. Initial soil samples collected in accordance with closure plan approved by OCD Santa Fe (Brad Jones) exceeded TPH reporting limits under pit rule (June 28, 2013) and requires notification to OCD District 1.

Describe Area Affected and Cleanup Action Taken.\* Following meeting with OCD District 1 (Geoffrey Leking) on December 23, 2013, vertical and horizontal extent of TPH in soil will be delineated.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
