Peggy Bradfield

Meridian Oil

P.O. Box 4289

Farmington, New Mexico 87499-4289

Dear Ms. Bradfield:

We have reviewed your application to commingle production downhole/ from the Blanco Mesaverde and the Basin Dakota Pools in the following well located on Federal lease No. SF-079394: Note: Both formations are included in their respective Participating Areas (PA).

**San Juan 27-5 Unit #125E**

**1560' FSL, 840' FEL, Section 21, T-27N, R-5W**

**Rio Arriba County, New Mexico**

Your application indicated that Meridian intends to complete the well in the Mesaverde formation, then combine production with existing Dakota production. The Dakota formation has been producing since 1986 and has established a known decline rate. Initial rates from the Mesaverde formation will be affected by flush production from the virgin reservoir and will decline at a higher rate until the formation is stabilized. Allocation must be based on extrapolation of Dakota production at the established decline rate. The remaining production for the month would then be allocated to the Mesaverde. The allocation method described above can be converted to a percentage factor as soon as it can be demonstrated that both formations are declining at equal rates. Please notify this office when allocation is converted.

Your application to commingle is hereby approved with the condition that allocation is based on extrapolation of existing Dakota production and will become effective on the date that actual commingling occurs.

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order(s) described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, P. O. Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order(s) unless the reviewing official so determines. Procedures governing appeals from instructions, orders or decisions are contained in 43 CFR 3165.4 and 43 CFR 4.400 *et seq.*

If you have any questions regarding this correspondence, please contact Ray Hager at (505) 599-6366.

Sincerely,  
*JD* Duane Spencer
