Latitude N 32.136122 **Longitude** W 103.824399

NATURE OF RELEASE

Type of Release: Crude oil and produced water	Volume of Release: 29 bbls crude oil and 6 bbls produced water	Volume Recovered: 20 bbls crude oil and 5 bbls produced water
Source of Release	Date and Hour of Occurrence: 1/5/14 at 7:00 a.m.	Date and Hour of Discovery: 1/5/14 at 7:00 a.m.
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Delayed report to Mike Bratcher NMOCD BLM on 1/5/14 at 12:30 p.m.	
By Whom? Tony Savoie	Date and Hour 1/7/14 at 11:36 a.m.	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
The valves on the process valves were misaligned and the flare scrubber dump failed to operate properly. The system over pressured and fluid went out the flare line vent. The system was restored to normal operations.

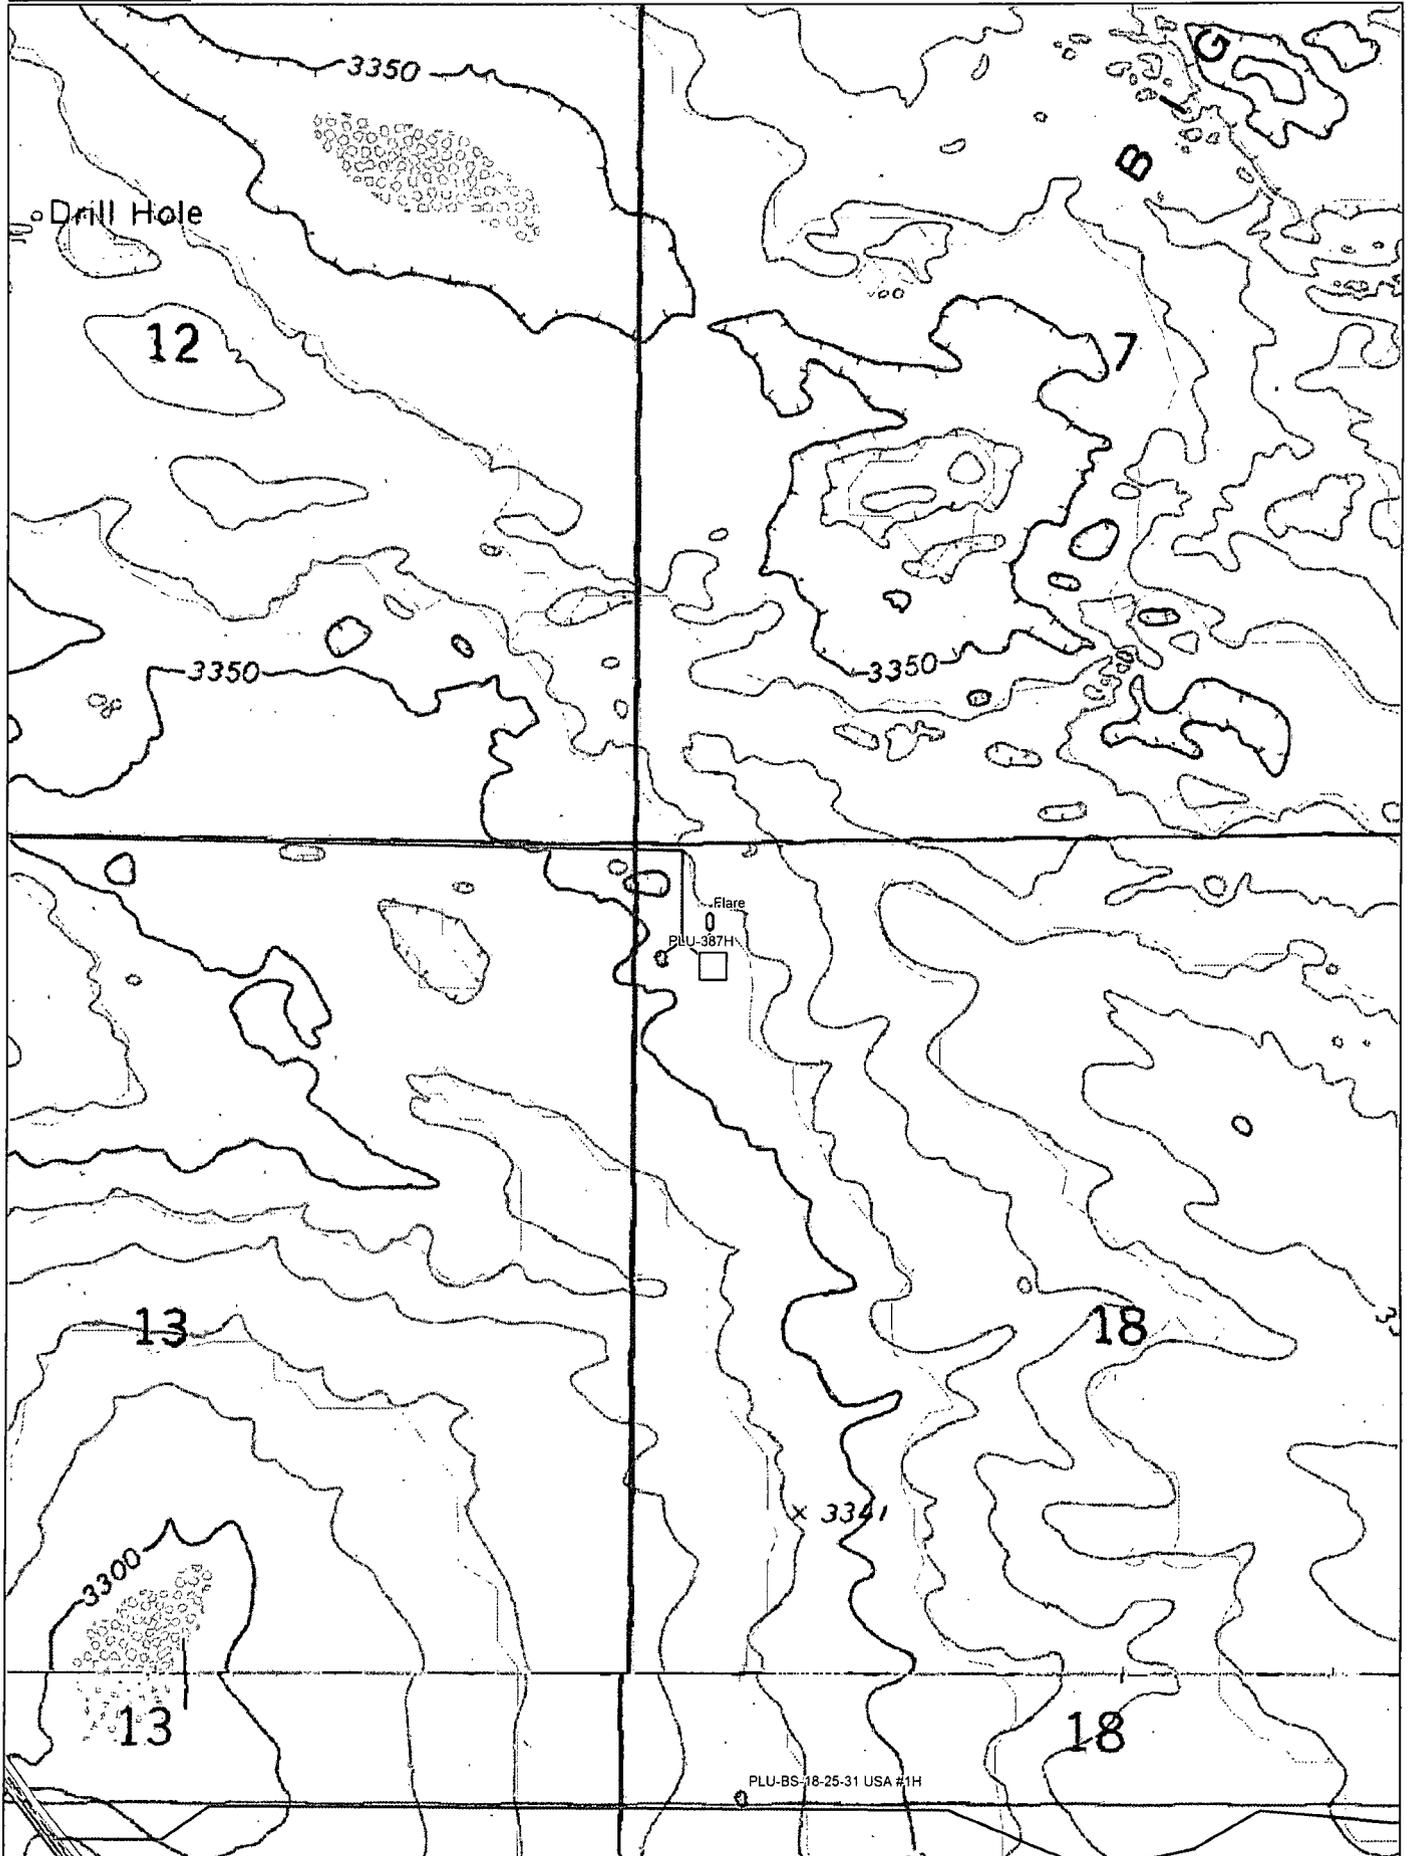

Describe Area Affected and Cleanup Action Taken.*
Approximately 247,860 sq. ft. of pasture area was lightly misted by the release, fluid visible on the vegetation but not on ground surface. Approximately 23,726 sq. ft. of pasture was more heavily impacted by the release, the vegetation was covered and there was 6 inches to 1 inch of saturation on the soil. There was a berm around the flare system that contained some of the fluid; approximately 25 bbls total fluid was recovered from the bermed area. The heavily impacted vegetation was washed down with soap, water and micro-blaze mixture. The spill will be remediated in accordance to the NMOCD and BLM recommended guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
