Mike and James,

Tetra Tech is preparing to start the remediation on the above referenced site on May 21,2013. We will mob the equipment in the morning, spot line and start the excavation in the afternoon. We will perform the remediation as stated in the approved work plan. We will notify you during each phase of the project. Let me know if you have any questions, thanks

To all,

At this time, some activities are being performed on the well site. The proposed remediation will be postponed until they are off the pad site and we anticipate starting the remediation next week. Let me know if you have any questions, thanks
