NMOCD Tracking number: 2RP-2166 \* Date of release: 12/29/2013

Mr. Jones,

The proposal for remediation of the above referenced produced fluid release, formulated and submitted to OCD by Talon, LPE, on behalf of OXY USA, is approved. Remedial activities on Federal sites are subject to like approval by BLM. Please notify OCD in the event the proposed excavation depths are not achieved, and, prior to backfilling the site.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
