Describe Area Affected and Cleanup Action Taken.* Due to congestion around the release area and overhead power line, impacted areas will be delineated via hand augers. Following delineation of release area, a Remediation Proposal will be presented to the NMOCD. Upon NMOCD approval, remedial activities will be initiated.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
