Describe Cause of Problem and Remedial Action Taken.\*  
The spill was contained on the lease road and traveled to the Regency Nash Draw Compressor site. Approximately 1500 sq. ft. of the lease road and approximately 300 sq. ft. of the compressor pad location. All of the fluid soaked into the ground. The road has had numerous reports of produced water being illegally dumped in the road way and compressor site. Soil samples were collected from various locations on the road on 9/10/13 to determine the extent of the release are and the existing chloride contamination due to the illegal dumping.

Describe Area Affected and Cleanup Action Taken.\*  
Spill affected area approximately 1500 sq. ft. of lease road and approximately 300 sq. ft. of compressor pad. The spill was delineated by Diversified Field Services, Inc. Impacted soils were removed to a NMOCD approved disposal facility. Confirmation samples were then submitted to a commercial lab for analyses. Backfill of the excavation was approved by the NMOCD and the BLM. The excavation was backfilled with caliche, lease road was sprayed with water, compacted and leveled.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

**Subject:** Yesterday's meeting for Bopco site closures

Hi Mike,

Per our discussion yesterday afternoon, Bopco has fulfilled the NMOCD's requirements for closure at the following three sites: **Poker Lake Unit #114 (2RP-1100)**, **Poker Lake Unit #251H (2RP-1903)**, and **James Ranch Unit #73 (2RP-1235)**. You requested signed final forms C-141 for Poker Lake Unit #114 and Poker Lake Unit #251H. Those will be emailed to you forthwith. Thank you for your help in addressing these sites. Future closure reports will be ready with signed final forms. Please call me with any questions/concerns.

Respectfully...

*Amy C. Ruth*
