Latitude 32 51.393 Longitude 103 45.798

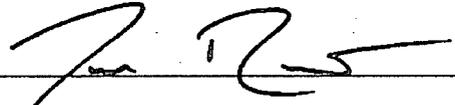

NATURE OF RELEASE

Type of Release	Oil and produced water	Volume of Release	10bbls oil 5bbls pw	Volume Recovered	9bbls oil 4bbls pw
Source of Release	Well head	Date and Hour of Occurrence	04/06/2012	Date and Hour of Discovery	04/06/2012 9:00 a.m.
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?		Date and Hour			
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*  
Describe Cause of Problem and Remedial Action Taken.\*  
The rod rotator cable wrapped around a 1" nipple and broke. The 1" nipple has been replaced.

Describe Area Affected and Cleanup Action Taken.\*  
Initially 15bbls of produced fluid was released from the well head and we were able to recover 13bbls with a vacuum truck. The fluid traveled from on the location to the pasture area in a 1' stream. Minimal impact occurred on the location. The location has been scraped. From the location the fluid streamed into the pasture to a 10' x 10' area. Tetra Tech will sample the spill area in the pasture to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD/BLM for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
