RE: Devon Energy Production * Cotton Draw Unit 065 * 30-015-10843 * G-2-25s-31e * Eddy County, New Mexico
NMOCD Tracking Number: 2RP-2300 * Date of release: 5/5/2014

Ms. Wilson,

Your proposal for remediation of the above referenced produced fluid release is approved with the following conditions:

- Notify the *OCD District 2 Office* prior to commencement of remedial activities.
- OCD will require the area identified as S-1 to be excavated and delineated to the maximum extent practicable.
- The area identified as S-2 will be evaluated once delineation sample results are received.
- Vertical extent of contamination to be determined during excavation process.
- Federal sites will require like approval by BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
