**NATURE OF RELEASE**

Type of Release Oil	Volume of Release Oil 83 bbls	Volume Recovered Oil 80 bbls
Source of Release Failure on circulating pump	Date and Hour of Occurrence 7/23/2014 1:00 pm	Date and Hour of Discovery 7/23/2014 1:00 pm
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher - OCD / Jeffery Robertson - BLM	
By Whom? Amanda Trujillo	Date and Hour 7/24/2014 4:30 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

A failure of the circulating pump caused the release of oil. All fluid was contained within the bermed area. A vacuum truck was dispatched to removal all standing fluids.

Describe Area Affected and Cleanup Action Taken.\*

The impacted area was to the south of the tanks inside the containment. Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
