Pamela W. Staley

Amoco Production Company

P.O. Box 800 1670 Broadway
Denver, Colorado 80201

Dear Ms. Staley:

We have reviewed your application to commingle production (downhole) from the Blanco Mesaverde and the Basin Dakota Pools in the following well located on Federal lease No. SF-080245:

Hammer #2A
825' FNL, 1660' FWL, Section 28, T-29N, R-9W
San Juan County, New Mexico

Production profiles from both formations for the past twelve months indicate that percentage allocation would not be equitable, because production is not declining at the same rate for both formations. Production rates from the Dakota formation are stable with an established decline rate. Please allocate commingled production from this well based on extrapolated production from the Dakota with the remainder of monthly production allocated to the Mesaverde formation.

Your application to commingle production is hereby approved based on the procedure described above, and will be effective on the date that actual commingling occurs.

Under provisions of 43 CFR 3165.3, you may request an Administrative Review of the order(s) described above. Such request, including all supporting documents, must be filed in writing within 20 business days of receipt of this notice and must be filed with the State Director, Bureau of Land Management, P. O. Box 27115, Santa Fe, New Mexico 87502-0115. Such request shall not result in a suspension of the order(s) unless the reviewing official so determines. Procedures governing appeals from instructions, orders or decisions are contained in 43 CFR 3165.4 and 43 CFR 4.400 *et seq.*

If you have any questions regarding this correspondence, please contact Ray Hager at (505) 599-6366.

Sincerely,

/s/ Duane Spencer
