All surface TPH needs to be under 1000 and Chlorides need to be under 1000 than you can bioremediate the rest. Send in bioremediaten plain for reworking the soil.

Jeff,

Please find attached the work plan for the above referenced release. We will be on site Tuesday March 11, 2014 to start the remediation activities. Please let me know if you have any questions or concerns.

Thank you.

Respectfully,

***Kimberly M. Wilson***
