Form C-141  
Revised October 10, 2003

RECEIVED  
Submit 2 Copies to appropriate District Office in accordance with Rule 116 on back side of form

**Release Notification and Corrective Action**

**OPERATOR**

Initial Report  Final Report

Name of Company	Plains Pipeline, LP	Contact	Camille Bryant
Address	2530 State Hwy. 214, Denver City, TX 79323	Telephone No.	(575) 441-1099
Facility Name	Darr Angell #4	Facility Type	Groundwater Remediation Site
Surface Owner	Darr Angell	Mineral Owner	
		API No. 30.025.12803	

**LOCATION OF RELEASE**

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
I	29	21S	37E					Lea

Latitude N 32.448517° Longitude W 103.176603°

**NATURE OF RELEASE**

Type of Release	PSH/Water	Volume of Release	2,869 gallons	Volume Recovered	2,869 gallons
Source of Release	Poly Tank	Date and Hour of Occurrence	8/14/2014 @ 09:00	Date and Hour of Discovery	8/14/2014 @ 09:30
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Verbal notification to Tomas Oberding		
By Whom?	Camille Bryant	Date and Hour	8/14/2014 @ 10:00		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* A poly tank located on a Plains Pipeline groundwater remediation site developed a leak resulting in a release of PSH/groundwater mixture. All released fluids were confined inside of the containment. During inspection of the liner small holes were identified along the north sidewall of the containment. Plains suspects the damage was a result of the cam locks on the vacuum hose being pulled from the containment after removal of fluids. No released fluids were observed outside the containment.

Describe Area Affected and Cleanup Action Taken. The released fluids were vacuumed from the containment and disposed of, the liner was repaired and the poly tank was replaced.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
