NATURE OF RELEASE

Type of Release: Oil and Produced Water	Volume of Release: 5 bbls Oil ; 10 bbls PW	Volume Recovered: 3 bbls Oil ; 8 bbls PW
Source of Release: Flowline	Date and Hour of Occurrence: 9/15/2014 1:00 pm	Date and Hour of Discovery: 9/15/2014 1:00 pm
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

The release was caused by corroded flowline. Repairs were made to the line and a vacuum truck was dispatched to pick up all standing fluid.

Describe Area Affected and Cleanup Action Taken.*

The impacted area occurred at the NE corner of the location and ran into the pasture. The area was treated with microblaze. Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
