If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* Flow line at the well head became plugged and ruptured.		
Describe Area Affected and Cleanup Action Taken.* Spill was on pad and ran into pasture area, no product was recovered. Area will be delineated and remediated according to NM regulations. Approx. 150'x10' in pasture & pooled in 20'x30' area, small area on pad.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mike,

Attached you will find the initial C-141 for the release that occurred yesterday at the Jackson A 29H in Loco Hills. We have contacted Diversified for the cleanup.

Please let me know if you have any questions or need any further info.

Thank you.
