| By Whom? | Jon D. Bebbington | Date and Hour | 7-24-2014 0830 PM | | |
| Was a Watercourse Reached? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No | If YES, Volume Impacting the Watercourse. | N/A | | |

If a Watercourse was Impacted, Describe Fully.* N/A

Describe Cause of Problem and Remedial Action Taken.*

On July 24, 2014 a DCP pipeline repair crew was excavating and struck a four inch SWD poly line apparently belonging to Nearberg and approx. 17 bbls of oily salt water spilled into the excavation ditch. An 811 call was made but no one from Nearberg responded.

Describe Area Affected and Cleanup Action Taken.*

Upon discovery, the line was blocked in and a vacuum truck summoned to vac out the free liquid. A meeting at the site will be held on July 29, 2014 with Nearberg to discuss cleanup action. Nearberg claims they never received an 811 call as their Carlsbad office is not manned to receive calls.

Nearberg was not on the one call, No tracer wire or tracer tape was present. We contacted Nerberg to see if they wanted this at there disposal and they told us no.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
