Fire at tank battery, caused by suspected lightning strike. Because of heavy rains and flooding, access was delayed.

An approximate area of 30' X 100' (inside bermed and lined battery). All oil/produced water recovered (liner sustained no damage). All production equipment is being removed and replaced. **Depth to Ground Water: >100' (approximately 120', per the ChevronTexaco Trend Map. Wellhead Protection Area: No, Distance to Surface Water Body: > 1000', SITE RANKING IS 0. Based on all oil /produced water recovered and battery is lined and liner intact, Yates Petroleum Corporation requests closure.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
