NATURE OF RELEASE

Type of Release: Produced Water	Volume of Release: 20 bbls	Volume Recovered: 18 bbls
Source of Release: Flowline	Date and Hour of Occurrence: 10-17-2014 1:51 am	Date and Hour of Discovery: 10-17-2014 1:51 am
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher - OCD / Jeffery Robertson - BLM	
By Whom? Amanda Trujillo	Date and Hour: 10/27/2014 10:34 am	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
This release was caused by a flowline leak. A issue in the SWD system caused the line to pressure up. Vacuum trucks were dispatched to pick up standing fluid. Repairs were made to the line.

Describe Area Affected and Cleanup Action Taken.*
The impacted area was approximately 300' x 1.5' in size in the pasture. Concho will have the spill site sampled to delineate any possible contamination from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation work.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: (Notification/Arc Clearance) Cooper 29 Federal #1H (30-015-36932)

Mr. Robertson,

COG Operating LLC is reporting a release on the Cooper 29 Federal #1H (30-015-36932).
Unit L Section 29 Township 25S Range 29E
The release occurred at 1:00 pm on 10/17/2014.

Released: 20 bbls PW

Recovered: 18 bbls PW

The release was caused by flowline leak. I would like to request an arc clearance for the Cooper 29 #1H. The site is being evaluated for clean-up and a C-141 will be submitted. Attached is a map of the location. If you have any additional questions please feel free to contact me.

Thank you,

Amanda Trujillo

Subject: Cooper 29 Federal #1H

Hello all,

I would like to request an arch clearance for the release that occurred on October 17, 2014 for the Cooper 29 Federal #1H. I would like to begin the sampling process late next week and will be using a coring rig to core sample the impacted areas. Attached is a google earth image of the area needed for clearance. The majority of the release occurred along the road and on the road. Some of the fluid followed a thin path through the pasture down the hill east of the release site. Please let me know if you have any questions or concerns.

Thanks

Lupe Carrasco
