RECEIVED

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state or local laws and/or regulations.

Subject: FW: Flare notification : Eddy County
Attachments: Goldenchild 12.3.14.pdf

Tomas mentioned something to us about if a flare location was in Eddy County we needed to notify one of you. Normally, we email our flare notification and follow up by emailing copies of the sundries. Please let us know if we need to handle things differently.

Thank you,

Sherry
