| <b>By Whom?</b> Wesley Ryan   | <b>Date and Hour</b> 12/21/14 at 3:00PM                             |   |
| <b>Was a Watercourse Reached?</b><br><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No  | <b>If YES, Volume Impacting the Watercourse</b>                     |   |

**If a Watercourse was Impacted, Describe Fully.\***

**Describe Cause of Problem and Remedial Action Taken.\***

Delaware Basin BU. Black Jack 1 Fed 2. - Lease Operator was checking tank levels on the Black Jack 1 Fed 2 when he noticed the flame on the heater treater was burning backwards out of the flame arrestor. The operator used his fire extinguisher to put out the fire and turned the supply gas off. After investigating it was discovered that the burner was plugged up and the flame came out of the burner end backwards smoking up the flame arrestor.

**Describe Area Affected and Cleanup Action Taken.\***

Assistant Foreman, will verify that all burners will be on a preventive maintenance plan

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
