Re: Application of Encana Oil & Gas (USA) Inc. for administrative approval of an unorthodox well location in the Alamito-Gallup Oil Pool for its Lybrook J31-2307-02H well in the S/2 of Section 36, Township 23 North, Range 8 West, San Juan County and the SW/4 of Section 31, Township 23 North, Range 7 West, N.M.P.M., Sandoval County, New Mexico.

Dear Ms. Bailey:

Encana Oil & Gas (USA) Inc. (OGRID No. 282327) seeks administrative approval of an unorthodox well location for its **Lybrook J31-2307-02H** well to be completed within the Alamito-Gallup Oil Pool (Pool Code 1039). As shown on **Exhibit A** (C-102) this well will be drilled from a surface location 2192 feet from the South line and 2551 feet from the East line (Unit J) of Section 31, Township 23 North, Range 7 West in Sandoval County, to a bottom hole location 1177 feet from the South line and 330 feet from the West line (Unit O) in Section 36, Township 23 North, Range 8 West in San Juan County, New Mexico. The first perforation for this well is expected to be 340 feet from the West line and 1,777 feet from the South line of Section 36, while the last perforation is expected to be 2,990 feet from the East line and 1,181 feet from the South line of Section 31. Since the Alamito-Gallup Oil Pool is subject to the Division's statewide rules requiring 330 feet setbacks, this well will encroach on the spacing and proration units to the North, Northwest, and Northeast.

Enclosed as **Exhibit B** is a land map depicting the proposed **Lybrook J31-2307-02H** well in relation to adjoining spacing units and further identifies the owners in the affected leases. Enclosed as **Exhibit C** is a list of the parties affected by the encroachment to the North, Northwest, and Northeast, which includes Indian allottees and mineral lessees. A copy of this application with all attachments has been sent by certified mail to all parties advising them that if they have an objection it must be filed in writing with the division within 20 days from the date the division receives this application. A courtesy copy of this application has been sent to the New Mexico State Land Office, the Bureau of Land Management, and the Federal Indian Mineral's Office.

Your attention to this matter is appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael H. Feldewert".

Subject: RE: Encana Lybrook J31-2307 2H

Mr. McMillan,

The reason that the application seeks an unorthodox well location/completed interval is because it will all for efficient well spacing and prevent waste of a productive reservoir.

Best regards,
Jordan
