## Administrative Order NSL-5292

Dear Mr. Corcoran:

Reference is made to the following: (i) your application dated August 23, 2005 that was submitted to the New Mexico Oil Conservation Division ("Division") in Santa Fe, New Mexico on August 29, 2005 (*administrative application reference No. pMES0-529839106*); and (ii) the Division's records in Aztec and Santa Fe: all concerning CDX Rio, L.L.C.'s ("CDX") request for an exceptions to the well location requirements provided within the:

(A) "*Special Rules for the Blanco-Mesaverde Pool*," as promulgated by Division Order No. R-10987-A, issued in Case No. 12069 and dated February 1, 1999, as amended by Division Order No. R-10987-A (1), dated December 2, 2002; and

(B) "*Special Rules for the Basin-Dakota Pool*," as promulgated by Division Order No. R-10987-B, issued in Case No. 12290 and dated June 30, 2000, as amended by Division Orders No. R-10987-B (1), dated August 10, 2000, and R-10987-B (2), dated January 29, 2002.

CDX proposes to drill its Jicarilla "A" Well No. 7-F at an unorthodox infill gas well location in both the Blanco-Mesaverde (72319) and Basin-Dakota (71599) Pools 660 feet from the North line and 2055 feet from the West line (Unit C) of Section 17, Township 26 North, Range 5 West, NMPM, Rio Arriba County, New Mexico.

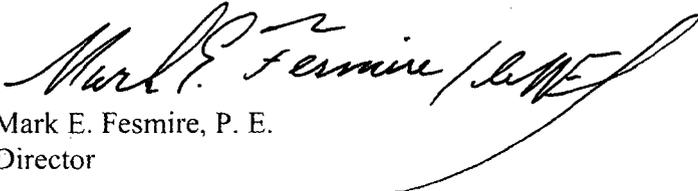

Gas production from the Basin-Dakota Pool is to be included within an existing standard 320-acre stand-up gas spacing and proration unit ("GPU") comprising the W/2 of Section 17, which is currently dedicated to CDX's two: (i) Jicarilla "A" Well No. 7 (API No. 30-039-08097), located at a standard gas well location 1595 feet from the South line and 900 feet from the West line (Unit L) of Section 17; and (ii) Jicarilla "A" Well No. 7-E (API No. 30-039-22896), located at a standard infill gas well location 940 feet from the North line and 1000 feet from the West line (Unit D) of Section 17.

Gas production from the Blanco-Mesaverde Pool is to be included within an existing standard 320-acre stand-up GPU that also comprises the W/2 of Section 17 and is currently dedicated to CDX's above-described Jicarilla "A" Well No. 7-E.

This application has been duly filed under the provisions of Division Rules 104.F and 605.B and the applicable rules governing both pools.

By the authority granted me under the provisions of Division Rule 104.F (2), the above-described unorthodox Basin-Dakota/Blanco-Mesaverde infill gas well location for CDX's proposed Jicarilla "A" Well No. 7-F is hereby approved. All of the aforementioned wells and both spacing units will be subject to all existing rules, regulations, policies, and procedures applicable to prorated gas pools in Northwest, New Mexico.

Sincerely, \_\_\_\_\_

Mark E. Fesmire, P. E.  
Director
